BC

The Human Development program taught me more then I could have ever imagined.

The teachers were very accessible and accommodating. Each week you were pushed to be the best student you could be. Hope International does a phenomenal job at teaching the subject and relating it back to the individual. When there is an application aspect of the class, you get a better grasp of the work you are doing. The ground has been laid for a prosperous future in the counseling field – Madison Hoefflin
